

## CCM FEBRUARY 19, 2014

- We went over our member list, checked email addresses and areas they belong in.
- DWA testing will begin the first week of April for all the 5th graders.
- SAGE TESTING - All 3rd grade and up will have to type all their answers. We need to inform parents to have students try to practice typing at home and take the practice tests on [sageportal.org](http://sageportal.org). Students can go on as a guest. The password is guest.
- SAFETY - We will be asking parents of all our safety patrol children to see if they can stay and help control other parents and insure our children's safety.
- MAILBOX.COM - Anjannette Jones brought in several things she had purchased from [mailbox.com](http://mailbox.com) that she thought would be helpful for the kindergarten teachers.
- CSIP - Scores are of children that have been in our school for 2 years or more. Our CSIP plan can be found on our school web site (<http://westvale.jordandistrict.org/title-1-plan/>) along with our test scores and growth chart. CSIP changes every year.
- TEST TAKING - We are looking for ways to up our test taking skills, such as iPad games, more computer time, and things that can be done at home. Our staff is AMAZING!!!! We can only go up from here. We are going to continue to encourage the students with positive reinforcement.
- DROP OFF ZONE - Several committee members brought up the pick-up conditions in front of our school. We all decided to write WEST JORDAN CITY asking them to repaint the red lines on the curb in front of our school and if possible patrol the area when school lets out.
- OUR NEXT MEETING WILL BE MARCH 27, 2014.
