Discuss Safe Routes Plan and elicit feedback

SCC members looked at a district map and our Safe Routes Plan to ensure students have safe walking routes to our school.

One member discussed the possibility of having a “right only” exit out of our drop off and pick up lane so we don’t block traffic. Then cars can turn around down the road.

Other concerns discussed:

- Lack of sidewalks on Gardner Lane on the south side of the road
- Painting right and left arrows so cars can exit our drop off and pick up lanes in an orderly fashion.
