SCC NOTES

Land Trust Plan Review

K - 2

School goal: 65% of students typical or better growth in reading

- 42% 2023-24 school year
- 60% state goal for students showing typical or better progress
- Discussed how this progress is measured

Progress Monitoring has been difficult to accomplish in the past years. Time is being strategically allocated to accomplish this task this year.

Westvale has typically used most Land Trust money to retain or hire more paraprofessionals and our art teacher, who was art teacher of the year last year. This will be the proposal for next year's plan as well.

POSITIVE BEHAVIOR PLAN Review

- Inside the school den page, we spoke about the schoolwide behavior plan
- Consistent and fair; pyramid was shown and discussed
- Panorama is used to help track behavior
- In Focus program
- Shouting out students in many different ways
- School wide PACK

Members expressed satisfaction with the behavior plan. Students want to be at school, they feel safe.

Threshold of bringing kids inside when it's 23 degrees outside?

- Family resource center is available for jackets to keep warm
- Motion made by Mrs. Glover to keep the threshold. Voted unanimously, and passed to keep it at 23 degrees

Does the SCC committee want to volunteer to do the fundraiser next year? Funds go to the SCC checking account and will be spent based on recommendations.

- Chocolate fundraiser raised \$13,000

Donations for a fundraiser?

Fun Run type activity where activities are paid a few dollars to participate?

Reach out to help find fundraiser ideas; look for one that is only one day

Motion to close meeting by Mrs. Glover
