COMMUNITY COUNCIL AGENDA

JANUARY 16, 2020

3:15 PM

WESTVALE MEDIA CENTER/LIBRARY

ATTENDEES- ALL ARE WELCOME TO ATTEND

Chelsea Lewis

Rebecca Eastman

Jill Morley

Jen Palomin

April Gaydosh

Anjanette Jones

Garett York

Marilyn Richards

1. INTRODUCTION OF COUNCIL MEMBERS

2. Fundraising totals/next steps

About \$12,300 profit- less than last years, but the timing would be better in spring not right after Halloween.

Earmarked for School Store- about \$1,000 per month to spend is ideal amount. So far only \$3,000 spent but has been carefully managed- currently money has been from a donation that has been sitting around.

Want to spend this money down before our next SCC fundraiser.

Use this money for upkeep of the School Store.

3. Safe Walking Routes to School Plan (review/revision)

Language in Safe Routes about the same.

Which map is better and more clear? Picture of the aerial view seems better. (take off 3 portables that are gone, grade level wings, 8660/Gardner Lane label needs to be seen, no need to add verbiage about parking along the road, red painted curb?- should be red if it's supposed to be red, safe area so won't be dangerous for cars leaving, crosswalk all across the road and lose 2 spots if the curb shouldn't really be red and it's ok to park there, Street around the exits/entrances requested to be red (is it a fire lane?),

District concerns (on campus concerns): crosswalk moved to facilitate not walking down delivery road

Crossing guards map from Safe Schools and written description.

Amendment with the area 5 has been adjusted.

Last year- Area 5 (3200 west side neighborhood) requested a crosswalk currently not safe without a crosswalk at Haun Dr., flashing light used to be near the 8750 (road without the sidewalk), Haun Dr. has a sidewalk. Southside of Gardner Lane west of 2200 does not have a sidewalk so crossing is not safe, (with parents assisting it is not a safe route, but many of our students get themselves to school without parent assistance).

Closest cross to golf course parking lot is at the 4 way, but parents and students do not use the 4 way.

Keep the concerns from last year and/or additions- request a sidewalk audit on west side of 3200 and 9000 S between 2700 and 2200 with the lack of safe fencing. Safety concern language included.
